MANA YERBA MATE

MANA is a proudly Montréalais brand of sparkling yerba maté beverages. Our name comes from the Polynesian word for the natural (some would say supernatural) force that surrounds us all. Or not. We also just think it sounds cool. But we definitely believe in the power of nature. Because nature created the all-natural caffeine found in the South American yerba plant that we air dry and cold brew before pairing with all-natural fruit and herbs to makeour 100% organic sparkling beverages.
